"Learning that lasts a lifetime"

Newsletter

Welcome back to a sunny Summer 2nd half-term. We are looking forward to a busy and exciting few weeks with lots to look forward to. As the weather improves, we are likely to spend more time outside. Please ensure children come to school equipped with labelled sun hats and sun cream.

This weekend St Luke's are holding their annual Big Lunch. This is always a lovely opportunity to get together with other families to share some food and fun! The weather's looking good so we should be able to have a proper picnic outside. I look forward to seeing lots of you there.

Thank you to parents who returned our annual Parent Survey. The results were overwhelmingly positive. However, don't forget that if you have any concerns, please ensure you tell us about them! Mrs Carmichael

**DON'T FORGET ST LUKE'S
BIG LUNCH ON SUNDAY
18TH JUNE. INFO ON
FOLLOWING PAGE.....**

Parent Forum—Tuesday, 13th June One parent attended our parent forum on Tuesday! I've a sneaking suspicion that the beautiful, sunny weather had something to do with that! We shared with the parent the fact that the merger with The Saints' Way is looking very likely to go ahead; however, it may take a little longer than expected due to the events at Westminster. We will, of course, inform you of progress as and when we can.

'BB Friends' is also soon to become a significantly smaller group when our current year 6 pupils move onto secondary school. They desperately need new members so please contact the school office if you can spare some time to help with their fundraising events.

SAFETY UPDATE:

Reminder: please ensure your young children are properly supervised before and after school to avoid any avoidable injuries!

Share aware—The NSPCC has launched a new video 'Be Share Aware - safety advice from a 10 year old' to raise awareness and give parents and carers the confidence and skills to talk to their child about staying safe online. It can be accessed on their website—www.nspcc.org.uk/

It has been brought to our attention that the App called 'Episode' is one to be aware off. It is apparently a little like 'Sims' but contains more 'adult' material. Please be aware that 'Episode -- Choose Your Story' is a collection of interactive stories written either by the editorial team or by users themselves. Before beginning, users must attest to being 13 years of age or older. Most, if not all, stories either contain references to or are entirely based on material which is NOT child-appropriate. Including very inappropriate language. To advance the story in the way you want, you will need gems, so players are frequently encouraged to purchase gems or tickets, which help them influence the story's direction or continue reading the story. Users can sign up through a Google account to create their own stories and participate in extensive forum discussions, and they can share pictures from the story through their social media accounts or their device's sharing options. See the following link to read a review by Common sense media about the App <https://www.common sense media.org/>

We have invested in 30 brand new laptops to ensure that each pupil gets an even richer computing experience across the whole curriculum.

The children are thrilled and excited to begin some new projects supported by this amazing resource.
