Curriculum

2019-2020

At Bishop Bronescombe, our EYFS team follow a child directed approach to teaching and learning. We use the children's interests and routes of enquiry to teach specific skills and move children's learning forward. Our bespoke curriculum is tailored to the current needs and next steps of our children. We may also use new stimuli or opportunities to broaden children's interests. We value the importance of offering first hand experiences to create a memorable and engaging curriculum. We pay attention to our teaching coverage to ensure that skill progression of all seven areas of the Early Years Foundation Stage are identified through current themes and interests. Through careful consideration, we ensure that each child has the coverage of skills and knowledge needed to progress towards their Early Learning Goals.

Our daily timetable is made up of both adult led and child initiated sessions throughout the day, the duration of our carpet inputs increase as the year progresses. We also use a Gap and Strength Analysis to tailor our learning environment, ensuring that high quality, open ended resources are provided to maximise opportunities to close developmental gaps and optimise children's characteristics of effective learning.
