Topic: Marvellous Mayans

Year 5/6

Strand: Ancient Civilisations

The Maya were a civilisation who lived in Mesoamerica (now Central America) between approximately 2000 BCE and 900CE. They are known for being the first Mesoamericans to develop writing. They also had a sophisticated culture in which they lived in city states. They built spectacular monuments and stepped pyramids – some (e.g. El Castillo in Chichen Itza) have become world tourist destinations in the modern day. They were also well-known for their advanced maths and calendars. Around 900CE, Maya cities became abandoned. No one knows for sure why this happened.
