				using straightforward scientific evidence to answer questions or to support their findings.	
Plants See boxes below in living things	identify and name a variety of common wild and garden plants, including deciduous and evergreen trees identify and describe the basic structure of a variety of common flowering plants, including trees	observe and describe how seeds and bulbs grow into mature plants find out and describe how plants need water, light and a suitable temperature to grow and stay healthy	identify and describe the functions of different parts of flowering plants: roots, stem/trunk, leaves and flowers explore the requirements of plants for life and growth (air, light, water, nutrients from soil, and room to grow) and how they vary from plant to plant investigate the way in which water is transported within plants explore the part that flowers play in the life cycle of flowering plants, including pollination, seed		

				formation and seed dispersal			
Animals	Physical	identify and name a	notice that animals,	identify that animals,	describe the simple	describe the	identify and name the
including	development-	variety of common	including humans,	including humans,	functions of the basic	changes as humans	main parts of the
humans.	health and self-	animals including fish,	have offspring which	need the right types	parts of the digestive	develop to old age	human circulatory
	care	amphibians, reptiles,	grow into adults	and amount of	system in humans		system, and describe
	40-60	birds and mammals		nutrition, and that			the functions of the
	Eats a healthy		find out about and	they cannot make	identify the different		heart, blood vessels
	range of	identify and name a	describe the basic	their own food; they	types of teeth in		and blood
	foodstuffs and	variety of common	needs of animals,	get nutrition from	humans and their		
	understands need	animals that are	including humans,	what they eat	simple functions		recognise the impact
	for variety in food.	carnivores, herbivores	for survival (water,	Strate of the the second			of diet, exercise,
	•Shows some	and omnivores	food and air)	identify that humans and some other	construct and		drugs and lifestyle on
	understanding	describe and semenars	describe the	and some other animals have	interpret a variety of		the way their bodies function
	that good	describe and compare the structure of a	importance for	skeletons and muscles	food chains,		Tunction
	practices with	variety of common	humans of exercise,	for support,	identifying producers, predators and prey		describe the ways in
	regard to	animals (fish,	eating the right	protection and	predators and prey		which nutrients and
	exercise, eating,	amphibians, reptiles,	amounts of different	movement			water are transported
	sleeping and	birds and mammals	types of food, and	movement			within animals,
	hygiene can	including pets)	hygiene				including humans
	contribute to		,8.66				
	good health.	identify, name, draw					
	•Shows	and label the basic					
	understanding of	parts of the human					
	the need for	body and say which					
	safety when	part of the body is					
	tackling new	associated with each					
	challenges, and	sense					
	considers and						
	manages some						
	risks.						

	Early Learning				
	Goal				
	Children follow				
	instructions				
	involving several				
	ideas or actions.				
	They answer				
	'how' and 'why'				
	questions about				
	their experiences	distinguish botwoon on	identifyand		
Everyday Materials		distinguish between an object and the material	identify and compare the		
iviateriais	See box below in	from which it is made	suitability of a		
	living things	Hom which it is made	variety of everyday		
	iiviiig tiiiigs	identify and name a	materials, including		
		variety of everyday	wood, metal, plastic,		
		materials, including	glass, brick, rock,		
		wood, plastic, glass,	paper and cardboard		
		metal, water, and rock	for particular uses		
		,,			
		describe the simple	find out how the		
		physical properties of a	shapes of solid		
		variety of everyday	objects made from		
		materials	some materials can		
			be changed by		
		compare and group	squashing, bending,		
		together a variety of	twisting and		
		everyday materials on	stretching		
		the basis of their			
		simple physical			
		properties			

Seasonal Changes	observe changes across the 4 seasons observe and describe weather associated with the seasons and how day length varies				
Living things and their World habitats • Comments and asks questions about aspects of their familiar world such as the place where they live or the natural world. • Can talk about some of the things they have observed such as plants, animals, natural and found objects. • Talks about why things happen and how things work. • Developing an		explore and compare the differences between things that are living, dead, and things that have never been alive identify that most living things live in habitats to which they are suited and describe how different habitats provide for the basic needs of different kinds of animals and plants, and how they depend on each other identify and name a variety of plants and animals in their	recognise that living things can be grouped in a variety of ways explore and use classification keys to help group, identify and name a variety of living things in their local and wider environment recognise that environments can change and that this can sometimes pose dangers to living things	describe the differences in the life cycles of a mammal, an amphibian, an insect and a bird describe the life process of reproduction in some plants and animals.	describe how living things are classified into broad groups according to common observable characteristics and based on similarities and differences, including microorganisms, plants and animals give reasons for classifying plants and animals based on specific characteristics

ST PIRAN'S CROSS Subject Non- Negotiables — skills and knowledge to be covered

growth, decay	habitats, including		
and changes	microhabitats		
over time.			
•Shows care and	describe how		
concern for living	animals obtain their		
things and the	food from plants		
environment	and other animals,		
	using the idea of a		
	simple food chain,		
	and identify and		
40-60 months	name different		
•Looks closely at	sources of food		
similarities,			
differences,			
patterns and			
change.			
Early Learning			
Goal			
Children know			
about similarities			
and differences in			
relation to places,			
objects, materials			
and living things.			
They talk about			
the features of			
their own			
immediate			
environment and			
how			
environments			
might vary from			

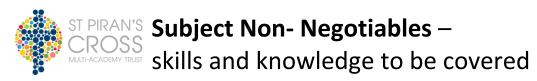

ST PIRAN'S CROSS MULTI-ACADEMY TRUST Skills and knowledge to be covered

		Ī	Ī	T	Ī
	one another.				
	They make				
	observations of				
	animals and				
	plants and				
	explain why some				
	things occur, and				
	talk about				
	changes.				
Rocks			compare and group		
			together different		
			kinds of rocks on the		
			basis of their		
			appearance and		
			simple physical		
			properties		
			properties		
			describe in simple		
			terms how fossils are		
			formed when things		
			that have lived are		
			trapped within rock		
			trapped within rock		
			rocagnica that sails		
			recognise that soils are made from rocks		
			and organic matter		
11.1.1					
Light			recognise that they		recognise that light
			need light in order to		appears to travel in
			see things and that		straight lines
			dark is the absence of		
			light		use the idea that light
					travels in straight

ST PIRAN'S CROSS MULTI-ACADEMY TRUST Skills and knowledge to be covered

		notice that light is		lines to explain that
		reflected from		objects are seen
		surfaces		because they give out
				or reflect light into
		recognise that light		the eye
		from the sun can be		
		dangerous and that		explain that we see
		there are ways to		things because light
		protect their eyes		travels from light
		,		sources to our eyes or
		recognise that		from light sources to
		shadows are formed		objects and then to
		when the light from a		our eyes
		light source is blocked		
		by an opaque object		use the idea that light
				travels in straight
		find patterns in the		lines to explain why
		way that the size of		shadows have the
		shadows change		same shape as the
				objects that cast them
Forces and		compare how things	explain that	
Magnets		move on different	unsupported objects	
		surfaces	fall towards the	
			Earth because of the	
		notice that some	force of gravity	
		forces need contact	acting between the	
		between 2 objects,	Earth and the falling	
		but magnetic forces	object	
		can act at a distance		
			identify the effects	
		observe how magnets	of air resistance,	
		attract or repel each	water resistance and	

		other and attract some materials and not others compare and group together a variety of everyday materials on the basis of whether they are attracted to a magnet, and identify some magnetic materials describe magnets as		friction, that act between moving surfaces recognise that some mechanisms including levers, pulleys and gears allow a smaller force to have a greater effect	
		having 2 poles predict whether 2 magnets will attract or repel each other, depending on which poles are facing			
Properties and changes of materials			compare and group materials together, according to whether they are solids, liquids or gases observe that some materials change state when they are heated or cooled, and measure or research	compare and group together everyday materials on the basis of their properties, including their hardness, solubility, transparency, conductivity (electrical and	

		the temperature at	thermal), and	
		which this happens in	response to magnets	
		degrees Celsius (°C)		
			know that some	
		identify the part	materials will	
		played by evaporation	dissolve in liquid to	
		and condensation in	form a solution, and	
		the water cycle and	describe how to	
		associate the rate of	recover a substance	
		evaporation with	from a solution	
		temperature		
			use knowledge of	
			solids, liquids and	
			gases to decide how	
			mixtures might be	
			separated, including	
			through filtering,	
			sieving and	
			evaporating	
			give reasons, based	
			on evidence from	
			comparative and fair	
			tests, for the	
			particular uses of	
			everyday materials,	
			including metals,	
			wood and plastic	
			demonstrate that	
			dissolving, mixing	
			and changes of state	

				are reversible	
				changes	
				explain that some	
				changes result in the	
				formation of new	
				materials, and that	
				this kind of change is	
				not usually	
				reversible, including	
				changes associated	
				with burning and the	
				action of acid on	
				bicarbonate of soda	
Sound			identify how sounds		
			are made, associating		
			some of them with		
			something vibrating		
			recognise that		
			vibrations from		
			sounds travel through		
			a medium to the ear		
			a medium to the edf		
			Calaria I		
			find patterns between		
			the pitch of a sound		
			and features of the		
			object that produced		
			it		
			find patterns between		
			the volume of a		

	sound and the strength of the vibrations that produced it recognise that sounds get fainter as the distance from the sound source increases	
Electricity	identify common appliances that run on electricity construct a simple	associate the brightness of a lamp or the volume of a buzzer with the number and voltage
	series electrical circuit, identifying and naming its basic parts,	of cells used in the circuit
	including cells, wires,	compare and give
	bulbs, switches and	reasons for variations
	buzzers	in how components function, including
	identify whether or	the brightness of
	not a lamp will light in	bulbs, the loudness of
	a simple series circuit,	buzzers and the
	based on whether or	on/off position of
	not the lamp is part of	switches
	a complete loop with	
	a battery	use recognised
		symbols when
	recognise that a	
	switch opens and	

	closes a circuit and associate this with whether or not a lamp lights in a simp series circuit recognise some common conductors and insulators, and associate metals with being good conductors	h
Earth and Space		describe the movement of the Earth and other planets relative to the sun in the solar system describe the movement of the moon relative to the Earth describe the sun, Earth and moon as approximately spherical bodies use the idea of the Earth's rotation to explain day and

			night and the	
			apparent movement	
			of the sun across the	
			sky	
			- /	
Evolution				recognise that living
and				things have changed
Inheritance				over time and that
				fossils provide
				information about
				living things that
				inhabited the Earth
				millions of years ago
				minions of years ago
				recognise that living
				things produce
				offspring of the same
				kind, but normally
				offspring vary and are
				not identical to their
				parents
				identify how animals
				and plants are
				adapted to suit their
				environment in
				different ways and
				that adaptation may
				lead to evolution
